

SmartScale - Aros SmartFlow

Non Invasive
Diagnostics.
Several solutions for
different needs.

ALBYN MEDICAL
Smart Medical Group

SmartScale – PC Flow

The wireless Flowmeter with PC and network integration

Advantages of the SmartScale

- Wireless – easy to use and clean
- Fully automatic.
- Excellent measurement quality.
- Fixed or variable scale.
- Automatic analysis including Liverpool, Siroky and paediatric nomograms.
- Easy to use software with SQL database.
- High security level for data protection.
- Hygienic - designed to prevent overflow and splashes.
- Robust and durable.

Aros – Flow-EMG

Combined EMG and Flow system

Advantages of Aros

- Aros has all the features and advantages of the SmartScale.
- Wireless synchronisation with the EMG.
- Rechargeable EMG connected to the computer USB
- Optional Biofeedback software with skin electrodes, anal and vaginal probes.
- Possibility to combine with our residual volume measurement system, Pinit.

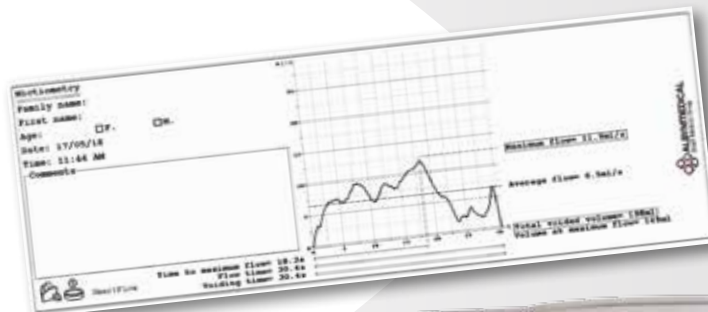

SmartFlow – Printer Flow

The “classic approach” with wireless design and unique extras

Advantages of the SmartFlow:

- Wireless, portable and easy to use.
- Touch screen control.
- High measurement quality especially in small flows
- Fully automatic, power-safe mode, Auto-zero, Auto-start, Auto-stop, Auto-print.
- Fast printing (80mm thermal paper).
- Automatic analysis and measurements.
- Data security, stores the latest 4 studies within internal memory to allow re-printing.
- Hygienic - designed to prevent overflow and splashes.
- Optional: wall mounted.
- Optional: PC link allows studies to be saved into an SQL database allowing integration with the hospital information system.

Options and Additional Products:

- Network integration via windows PC enables simultaneous systems management.
- Software compatibility with all Albyn Medical urodynamic systems
- DICOM Technology.
- Can be combined with our Pinit bladder scanner for residual volume measurements
- Different micturition chairs and stands available for adult and paediatric use.

Name: Urine Flowmeters. **Indications:** To perform Mictiometry studies with and without EMG signal. **Class:** IIa. **Notifying Body:** SGS. **Manufacturer:** Albyn Medical SL. **Caution:** Please read carefully the Instruction for Use Manual prior to start using the equipment. **Version:** FM_E_1
